Create Your Own Marshmallow

Pretend that your first job is at the Cereal Marshmallow Factory. Your boss puts you in charge of creating a new marshmallow. It can be whatever you want it to be. What would your marshmallow be? Why? What color or colors would it be and why? Is there a story behind it? Be as descriptive as you can by using lots of adjectives! When you have finished writing, design your marshmallow on the back.

I will make a green and blue marshmallow. That is Earth by the way. But I don't want to make it taste like grass. So I will make it strawberry flavor. A really good and great strawberry. So it would be pink when you bite into it. It will be called EARTH CHARMS! It would be a great tasting marshmallow Earth. Yum yum!
